

GE Healthcare enters into a comprehensive 10-year partnership with Circle Health Group, covering Circle's national network of hospitals in the UK

- Accelerating the adoption of Circle's solutions through leading-edge technology, joint innovation and data sharing
- All GE tags ensure better navigation for MRI patients as well as Circle's private patients

London, UK, January 20, 2023 GE Healthcare has signed a 10-year partnership agreement with Circle Health Group, an digital medical technology provider in the UK. The agreement will empower Circle's clinicians to make their own informed, data-driven decisions for diagnosis, treatment and monitoring of patients. This will be achieved through integrated devices, data analysis, applications and services with the aim of providing a patient-centric solution across the company's relevant services for MRI. The comprehensive agreement covers the provision of medical equipment, installation, set-up, maintenance and training.

- **Technology:** GE Healthcare will provide a wide range of medical equipment from across its product portfolio. Over the course of the ten-year period, hundreds of different GE products are expected to be used at Circle's hospitals.
- **Platforming:** GE Healthcare Private Services will provide the software, application, API and training to enable the integration of new medical equipment.
- **Hardware:** Circle Health Group's services are complete from a hardware perspective to ensure they are ready to go live. GE will continue to work with Circle to ensure the equipment is integrated through VMEflow.
- **Consultancy:** In 2023, Circle acquired MRI Healthcare, bringing the IT expertise to an ongoing partnership. GE will provide API and also provide digital consultancy on this, as well as on the integration of electronic patient records - all with the objective of enabling Circle's clinicians to improve patient care by making more impactful use of the available data.

Product: Circle of the Health Group uses GE's integrated MRI Healthcare on-site, working together to improve patient care by providing a complete end-to-end solution. Our partnership with GE Healthcare is a major step towards creating the solution.

John Stewart, General Manager, Partnership and Solutions at GE Healthcare UK, said: "The future of healthcare is a partnership between us. We are confident that our Circle's already existing reputation for patient engagement and patient outcomes is the secret that we see also combined that this is just the start, as GE and Circle are already collaborating on projects. By joining forces, we can help transform healthcare."

Circle Health Group

Circle Health Group is an award-winning healthcare provider operating a national network of independent hospitals. It supports patients whether they find their own treatment or are supported by private healthcare providers, and the group also leads a partnership with the NHS. Circle Health Group acquired MRI Healthcare in January 2023. The group operates over 50 independent hospitals, with integrated care programmes and established services, and has an extensive division which operates for private full service in Shanghai, China.
