You should read this prospectus, the information incorporated by reference into this prospectus and any applicable prospectus supplement as well as any post-effective amendments to the registration statement of which this prospectus forms a part before you make any investment decision.

The rules of the SEC allow us to incorporate information by reference into this prospectus. This information incorporated by reference is considered to be part of this prospectus. See “Incorporation of Certain Information by Reference.” You should read both this prospectus and any applicable prospectus supplement together with the additional information described under the heading “Where You Can Find More Information.”

We are responsible for the information incorporated by reference or contained in this prospectus, any applicable prospectus supplement or in any free writing prospectus prepared by or on behalf of us that we have referred to you. The selling stockholder is offering to sell, and seeking offers to buy, shares of our common stock only in jurisdictions where offers and sales are permitted. The information contained in this prospectus is accurate only as of the date of this prospectus, regardless of the time of delivery of this prospectus or of any sale of shares of our common stock. Our business, operating results or financial condition may have changed since such date.

THE OFFERING

| | |
|--|---|
| Common stock offered by the selling stockholder | Up to 61,581,302 shares of our common stock |
| Use of proceeds | All shares of our common stock sold pursuant to this prospectus will be offered and sold by the selling stockholder. We will not receive any proceeds from such sale. See “Use of Proceeds.” |
| Selling stockholder | <p>GE or a debt-for-equity exchange party.</p> <p>In connection with any sales of shares of our common stock pursuant to the registration statement of which this prospectus forms a part, GE may exchange up to 61,581,302 shares of our common stock for certain indebtedness of GE held by one or more of the underwriters or broker-dealers (or affiliates thereof), which we would refer to, in such role, as the “debt-for-equity exchange party.” In the event that a debt-for-equity exchange party is offering for sale shares of our common stock acquired pursuant to a debt-for-equity exchange, we will name such debt-for-equity exchange party as a selling stockholder in a prospectus supplement, and references to the “selling stockholder” shall apply to a debt-for-equity exchange party. GE may also be deemed a selling stockholder in such an offering solely for U.S. federal securities laws purposes.</p> <p>See “Selling Stockholder.”</p> |
| Plan of distribution (Conflicts of interest) | <p>The selling stockholder may offer the shares in amounts, at prices and on terms determined by market conditions at the time of the offering. The selling stockholder may sell shares through agents it selects or through underwriters and dealers it selects. The selling stockholder also may sell shares directly to investors. If the selling stockholder uses agents, underwriters or dealers to sell the shares, we will name them and describe their compensation in a prospectus supplement.</p> <p>GE may also exchange shares of our common stock for certain indebtedness of GE held by a debt-for-equity exchange party, which debt-for-equity exchange party may offer for sale shares of our common stock acquired pursuant to such debt-for-equity exchange pursuant to a prospectus supplement.</p> <p>See “Plan of Distribution (Conflicts of Interest).”</p> |
| Conflicts of interest | In the event that a debt-for-equity exchange party is offering for sale shares of our common stock acquired pursuant to a debt-for-equity exchange, such debt-for-equity exchange party named in any applicable prospectus supplement, which would act as an underwriter in the contemplated offering, would receive 5% or more of the net proceeds of such offering as the selling stockholder, and such |

debt-for-equity exchange party named in such prospectus supplement would be deemed to have a “conflict of interest” under Financial Industry Regulatory Authority, Inc. (“FINRA”) Rule 5121 (“Rule 5121”). Accordingly, the contemplated offering would be conducted in compliance with the requirements of Rule 5121. The appointment of a “qualified independent underwriter” would not be required in connection with such an offering because a “bona fide public market,” as defined in Rule 5121, exists for our common stock. In accordance with FINRA Rule 5121, a debt-for-equity exchange party named in such prospectus supplement would not confirm any sales to any account over which it exercises discretionary authority without the specific written approval of the transaction from the account holder.

Risk factors

For a discussion of risks and uncertainties involved with an investment in our common stock, see “Risk Factors” beginning on page 5 and any risk factors described in any accompanying prospectus supplement, as well as the risk factors and other information contained in our Annual Report on Form 10-K for the year ended December 31, 2023 (our “2023 Form 10-K”), which is incorporated by reference into this prospectus.

Listing

Our common stock is listed on Nasdaq under the symbol “GEHC.”

Unless we indicate otherwise, all information in this prospectus is based on 455,357,229 shares of our common stock outstanding as of January 30, 2024, and excludes (i) 40,923,900 shares of common stock reserved for issuance under the GE HealthCare 2023 Long-Term Incentive Plan and (ii) 8,110,922 shares of common stock available for purchase under the GE HealthCare mirror long-term incentive plans.

RISK FACTORS

Investing in our securities involves a high degree of risk. Before making an investment decision with respect to our securities, we urge you to carefully consider the risks described in the “Risk Factors” section of our 2023 Form 10-K filed with the SEC and incorporated by reference into this prospectus. In addition, the following risk factors present material risks and uncertainties associated with this offering. The risks and uncertainties incorporated by reference into this prospectus or described below are not the only ones we face. Additional risks and uncertainties not presently known or which we consider immaterial as of the date hereof may also have an adverse effect on our business. If any of the matters discussed in the “Risk Factors” section of our 2023 Form 10-K and the following risk factors were to occur, our business, financial condition, results of operations, cash flows or prospects could be materially adversely affected, the market price of our common stock could decline and you could lose all or part of your investment in our common stock.

Risks Related to the Offering

The price and trading volume of our common stock has been and may continue to be volatile and the value of an investment in our common stock could decline.

An active trading market for our common stock may not be sustainable. You may not be able to resell your shares of common stock at or above the price at which your shares were acquired. The market price and trading volume of our common stock has fluctuated substantially and may continue to do so due to a number of factors, some of which may be beyond our control, including:

- actual or anticipated fluctuations in our operating results;
- changes in earnings estimated by securities analysts or our ability to meet those estimates;
- the operating and stock price performance of comparable companies;
- changes to the regulatory and legal environment in which we operate;
- overall market fluctuations and domestic and worldwide economic conditions; and
- other factors described in the “Risk Factors” section in this prospectus and in our 2023 Form 10-K.

Securities markets worldwide experience significant price and volume fluctuations. This market volatility, as well as general economic, market or political conditions could reduce the market price of shares of our common stock regardless of our operating performance. In addition, our operating results could be below the expectations of public market analysts and investors due to a number of potential factors, including variations in our quarterly operating results or dividends, if any, to stockholders, additions or departures of key management personnel, failure to meet analysts’ earnings estimates, publication of research reports about our industry, litigation and government investigations, changes or proposed changes in laws or regulations or differing interpretations or enforcement thereof affecting our business, adverse market reaction to any indebtedness we may incur or securities we may issue in the future, changes in market valuations of similar companies or speculation in the press or investment community, announcements by us or our competitors of significant contracts, acquisitions, dispositions, strategic partnerships, joint ventures or capital commitments, adverse publicity about the industries we participate in or individual scandals, and in response the market price of shares of our common stock could decrease significantly.

In the past few years, stock markets have experienced extreme price and volume fluctuations. In the past, following periods of volatility in the overall market and the market price of a company’s securities, securities class action litigation has often been instituted against these companies. Such litigation, if instituted against us, could result in substantial costs and a diversion of our management’s attention and resources.

[Table of Contents](#)

Future sales, or the perception of future sales, by the Company or its stockholders in the public market could cause the market price of our common stock to decline. GE currently owns 61,581,302 shares of our common stock. We are registering all of such shares on a registration statement on Form S-3, of which this prospectus forms a part, under the terms of a stockholder and registration rights agreement between us and GE. The sale of such shares in one or more offerings or any other future sales may also cause our stock price to decline.

Any sales of substantial amounts of our common stock in the public market or the perception that such sales might occur, in connection with an offering made pursuant to this prospectus or otherwise, may cause the market price of our common stock to decline. Upon completion of any offering made pursuant to this prospectus, we will continue to have an aggregate of approximately 455 million shares of our common stock issued and outstanding. Shares will generally be freely tradeable without restriction or further registration under the Securities Act, except for shares owned by one of our “affiliates,” as that term is defined in Rule 405 under the Securities Act. Shares held by “affiliates” may be sold in the public market if registered or if they qualify for an exemption from registration under Rule 144 under the Securities Act. Further, on December 14, 2022, we filed a registration statement on Form S-1, which was declared effective on January 3, 2023, and on each of December 29, 2022 and February 15, 2023, we filed a registration statement on Form S-8 registering an aggregate of 50,465,912 shares of common stock underlying equity awards we have made and will make to our employees and certain other qualifying individuals, and the resale of those shares of common stock. We also plan to issue additional stock-based awards, including annual awards, new hire awards and periodic retention awards, as applicable, to our directors, officers, and other employees under our employee benefits plans as part of our ongoing equity compensation program. If equity securities granted under our long-term incentive plans are sold or it is perceived that they will be sold in the public market, the trading price of our common stock could decline substantially. These sales also could impede our ability to raise future capital.

GE currently owns 61,581,302 shares of our common stock. We are a party to a Stockholder and Registration Rights Agreement with GE, pursuant to which we agreed, upon request of GE, to use our reasonable best efforts to effect the registration under applicable federal and state securities laws of any shares of our common stock that it retains. On June 5, 2023, we filed a registration statement on Form S-1 pursuant to a request from GE to register all of the shares of our common stock then held by GE, under which 28,750,000 shares were sold. We are filing the registration statement on Form S-3 of which this prospectus forms a part to register all of the remaining 61,581,302 shares of our common stock that continue to be held by GE. Sales by GE or others of a substantial number of shares after the distribution, or a perception that such sales could occur, could significantly reduce the market price of our common stock. Any disposition by GE of our common stock, or the perception that such dispositions could occur, could adversely affect prevailing market prices for our common stock.

None of the proceeds from the sale of shares of our common stock by the selling stockholder will be available to us to fund our operations.

We will not receive any proceeds from the sale of shares of our common stock by the selling stockholder. The selling stockholder will receive all proceeds from the sale of such shares. Consequently, none of the proceeds from such sale by the selling stockholder will be available to us to fund our operations, capital expenditures, compensation plans or acquisition opportunities. See “Use of Proceeds.”

CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING STATEMENTS

This prospectus, any accompanying prospectus supplement, the documents incorporated by reference into this prospectus, and other written or oral statements that we make from time to time contain, or will contain, certain forward-looking statements regarding business strategies, market potential, future financial performance and other matters. The words “will,” “should,” “believe,” “expect,” “anticipate,” “project” and similar expressions, among others, generally identify “forward-looking statements,” which speak only as of the date the statements were made. The matters discussed in these forward-looking statements are subject to risks, uncertainties and other factors that could cause actual results to differ materially from those projected, anticipated or implied in the forward-looking statements. You should read this prospectus, and any accompanying prospectus supplement, as well as our 2023 Form 10-K, which is incorporated by reference herein, completely and with the understanding that actual future results may be materially different from expectations. All forward-looking statements made in this prospectus, any accompanying prospectus supplement and the documents incorporated or deemed to be incorporated by reference herein or therein are qualified by these cautionary statements. In particular, information included in this prospectus, any accompanying prospectus supplement or the documents incorporated by reference into this prospectus under headings such as “Risk Factors,” “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Business” contain forward-looking statements. Where, in any forward-looking statement, an expectation or belief as to future results or events is expressed, such expectation or belief is based on the current plans and expectations of our management and expressed in good faith and believed to have a reasonable basis, but there can be no assurance that the expectation or belief will result or be achieved or accomplished. Any forward-looking statement speaks only as of the date on which it is made. Factors that could cause our actual results to differ materially from those described in our forward-looking statements include, but are not limited to:

- operating in highly competitive markets;
- our ability to successfully complete strategic transactions;
- the actions or inactions of third parties with whom we partner and the various collaboration, licensing, and other partnerships and alliances we have with third parties;
- demand for our products, services, or solutions and factors that affect that demand;
- management of our supply chain and our ability to cost-effectively secure the materials we need to operate our business;
- disruptions in our operations;
- changes in third-party and government reimbursement processes, rates, contractual relationships, and mix of public and private payers, including related to government shutdowns;
- our ability to attract and/or retain key personnel and qualified employees;
- global geopolitical and economic instability, including as a result of the conflict between Ukraine and Russia, the conflict in Israel and surrounding areas, and the actions in the Red Sea region;
- public health crises, epidemics, and pandemics, such as the Coronavirus Disease 2019 (“COVID-19”) and their effects on our business;
- maintenance and protection of our intellectual property rights, as well as maintenance of successful research and development efforts with respect to commercially successful products and technologies;
- the impact of potential information technology, cybersecurity, or data security breaches;
- compliance with the various legal, regulatory, tax, privacy, and other laws to which we are subject, such as the Foreign Corrupt Practices Act and similar anti-corruption and anti-bribery laws globally, and related changes, claims, inquiries, investigations, or actions;
- our ability to control increases in healthcare costs and any subsequent effect on demand for our products, services, or solutions;

Table of Contents

- the impacts related to our increasing focus on and investment in cloud, edge, artificial intelligence, and software offerings;
- the impact of potential product liability claims;
- environmental, social, and governance matters;
- our ability to operate effectively as an independent, publicly traded company; and
- our level of indebtedness, as well as our general ability to comply with covenants under our debt instruments, and any related effect on our business.

These and other factors are more fully discussed in this prospectus, any accompanying prospectus supplement or the documents incorporated by reference into this prospectus under headings such as “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations.” Those cautionary statements are not exclusive and are in addition to other factors discussed elsewhere in this prospectus. Except as required by law, we assume no obligation to update or revise any forward-looking statements.

USE OF PROCEEDS

All shares of our common stock sold pursuant to this prospectus will be offered and sold by the selling stockholder. We will not receive any proceeds from such sale. The selling stockholder will be GE, a debt-for-equity exchange party, or a different selling stockholder as indicated in any prospectus supplement.

In the event that a debt-for-equity exchange party is offering for sale shares of our common stock acquired pursuant to a debt-for-equity exchange, such debt-for-equity exchange party named in any applicable prospectus supplement, which would act as an underwriter in the contemplated offering, would receive 5% or more of the net proceeds of such offering as the selling stockholder, and such debt-for-equity exchange party named in such prospectus supplement would be deemed to have a “conflict of interest” under FINRA Rule 5121. Accordingly, the contemplated offering would be conducted in compliance with the requirements of Rule 5121. The appointment of a “qualified independent underwriter” would not be required in connection with such an offering because a “bona fide public market,” as defined in Rule 5121, exists for our common stock. In accordance with FINRA Rule 5121, a debt-for-equity exchange party named in such prospectus supplement would not confirm any sales to any account over which it exercises discretionary authority without the specific written approval of the transaction from the account holder. See “Plan of Distribution (Conflicts of Interest)”.

SELLING STOCKHOLDER

All of these shares of our common stock are currently held by GE.

GE may dispose of any or all of such common stock that it retained after the Spin-Off through one or more underwriters or broker-dealers (or affiliates thereof). GE may also dispose of any or all shares of such common stock through one or more exchanges for debt. If GE disposes of shares of our common stock through a debt-for-equity exchange, GE and a debt-for-equity exchange party will enter into an exchange agreement with respect to such shares. Under the exchange agreement, subject to certain conditions, a debt-for-equity exchange party, as principal for its own account, would exchange debt obligations of GE held by a debt-for-equity exchange party for shares of our common stock held by GE. In the event that a debt-for-equity exchange party is offering for sale shares of our common stock acquired pursuant to a debt-for-equity exchange, we will name such debt-for-equity exchange party as a selling stockholder in a prospectus supplement, and GE may also be deemed a selling stockholder in such an offering solely for U.S. federal securities laws purposes. See “Plan of Distribution (Conflicts of Interest)”.

Beneficial Owner

GE has, to our knowledge, sole investment power with respect to 61,581,302 shares of our common stock. Pursuant to a Stockholder and Registration Rights Agreement by and between us and GE, GE granted us a proxy to vote the shares of our common stock owned by GE in proportion to the votes cast by our other stockholders. As a result, GE does not exercise voting power over any of the shares of our common stock that it beneficially owns.

The table below provides information with respect to the beneficial ownership of our common stock, as of January 30, 2024, by GE, which as of such date is a beneficial owner of more than 5% of our outstanding common stock. The information concerning the beneficial ownership of shares of common stock by GE included in this prospectus has been obtained from GE. As described above, the shares held by GE reflected in the table below may be sold by GE, or a different selling stockholder named in any prospectus supplement, as applicable, in one or more offerings described in this prospectus and any applicable prospectus supplement. GE may sell all, some or none of the shares of common stock beneficially owned by it, and therefore we cannot estimate either the number or the percentage of shares of common stock that will be beneficially owned by GE following any offering or sale hereunder.

As of January 30, 2024, 455,357,229 shares of our common stock are issued and outstanding. The percentage set forth in the table below is based on this share count.

| Name of Beneficial Owner | Number of Shares of Our Common Stock Beneficially Owned Prior to The Offering(s) Contemplated by this Prospectus | | Shares Contemplated Being Sold in The Offering(s) Contemplated by this Prospectus* | Number of Shares of Our Common Stock Beneficially Owned After The Offering(s) Contemplated by this Prospectus | |

The address of GE is One Financial Center, Suite 3700, Boston, Massachusetts 02111. DESCRIPTION OF OUR CAPITAL STOCK

The following is a summary of the material terms of our capital stock contained in our certificate of incorporation and bylaws. The summaries and descriptions below do not purport to be complete statements of the relevant provisions of our certificate of incorporation or our bylaws. The summary is qualified in its entirety by reference to such documents, which you must read (along with the applicable provisions of Delaware law) for complete information on our capital stock. Our certificate of incorporation and bylaws are included as exhibits to the registration statement of which this prospectus forms a part.

General

Pursuant to our certificate of incorporation, our authorized capital stock consists of 1,000,000,000 shares of common stock, par value \$0.01 per share, and 100,000,000 shares of preferred stock, par value \$0.01 per share. The Board may establish the rights and preferences of the preferred stock from time to time. As of January 30, 2024, we had 455,357,229 shares of our common stock issued and outstanding and no shares of preferred stock issued and outstanding.

Common Stock

Dividends

Holders of shares of our common stock are entitled to receive dividends when, as and if declared by the Board at its discretion out of funds legally available for that purpose, subject to the preferential rights of any preferred stock that may be outstanding. The timing, declaration, amount, and payment of future dividends will depend on our financial condition, earnings, capital requirements, and debt service obligations, as well as legal requirements, regulatory constraints, industry practice, and other factors that the Board deems relevant. Additionally, the terms of the indebtedness we incurred in connection with the Spin-Off limit our ability to pay cash dividends. The Board will make all decisions regarding our payment of dividends from time to time in accordance with applicable law.

Voting Rights

The holders of our common stock are entitled to one vote for each share held of record on all matters submitted to a vote of the stockholders. The holders of our common stock do not have cumulative voting rights.

Other Rights

Subject to the preferential liquidation rights of any preferred stock that may be outstanding, upon our liquidation, dissolution, or winding-up, the holders of our common stock are entitled to share ratably in our assets legally available for distribution to our stockholders.

Fully Paid

The issued and outstanding shares of our common stock are fully paid and non-assessable. Any additional shares of common stock that we may issue in the future will also be fully paid and non-assessable. The holders of our common stock will not have preemptive rights or preferential rights to subscribe for shares of our capital stock.

Preferred Stock

Our certificate of incorporation authorizes the Board to designate and issue from time to time one or more series of preferred stock without stockholder approval. The Board may fix and determine the designations, powers, preferences and relative, participating, optional, or other rights of each series of preferred stock. There are no present plans to issue any shares of preferred stock.

Certain Provisions of Delaware Law, Our Certificate of Incorporation, and Our Bylaws

Certificate of Incorporation and Bylaws

Certain provisions in our certificate of incorporation and our bylaws summarized below may be deemed to have an anti-takeover effect and may delay, deter, or prevent a tender offer or takeover attempt that a stockholder might consider to be in its best interests, including attempts that might result in a premium being paid over the market price for the shares held by stockholders. These provisions are intended to enhance the likelihood of continuity and stability in the composition of the Board and in the policies formulated by the Board and to discourage certain types of transactions that may involve an actual or threatened change of control.

- *Vacancies.* Our certificate of incorporation provides that any vacancies created on the Board resulting from any increase in the authorized number of directors and any vacancies in the Board resulting from death, retirement, disqualification, resignation, removal from office, or other cause will be filled solely by the affirmative vote of a majority of the remaining directors then in office, even if less than a quorum, or by the sole remaining director. Any director elected to fill a vacancy on the Board will hold office for a term expiring at the next annual meeting of stockholders and until his or her successor is duly elected and qualified.
- *Blank Check Preferred Stock.* Our certificate of incorporation authorizes the Board to issue, without any further vote or action by the stockholders, up to 100,000,000 shares of preferred stock from time to time in one or more series and, with respect to each such series, to fix the number of shares constituting the series and the designations, powers (including voting powers), preferences, and relative participating, optional, or other rights, if any, and any qualifications, limitations, or restrictions, if any, of the shares of such series. The ability to issue such preferred stock could discourage potential acquisition proposals and could delay or prevent a change in control.
- *No Stockholder Action by Written Consent.* Our certificate of incorporation expressly excludes the right of our stockholders to act by written consent. Stockholder action must take place at an annual meeting or at a special meeting of our stockholders.
- *Special Stockholder Meetings.* Our bylaws provide that the Board or a stockholder of record who is acting on behalf of one or more beneficial owners who collectively hold at least 25% of our outstanding shares is able to call a special meeting of stockholders.
- *Requirements for Advance Notification of Stockholder Nominations and Proposals.* Under our bylaws, stockholders of record are able to nominate persons for election to the Board or bring other business constituting a proper matter for stockholder action only by providing proper notice to our secretary. In the case of annual meetings, proper notice must be given between 90 and 120 days prior to the first anniversary of the prior year's annual meeting; however, if (A) the annual meeting is advanced by more than 30 days, or delayed by more than 60 days, from the first anniversary of the prior year's annual meeting, (B) no annual meeting was held during the prior year, or (C) with respect to the first annual meeting after the Spin-Off, the notice by the stockholder to be timely must be received (1) no earlier than 120 days before such annual meeting and (2) no later than the later of 90 days before such annual meeting and the tenth day after the earlier of the day on which the notice of such annual meeting was first made by mail or public disclosure. In the case of special meetings, proper notice must be given no earlier than 120 days prior to the relevant meeting and no later than the later of 90 days prior to such meeting and the tenth day after the earlier of the day on which the notice of such annual meeting was first made by mail or public disclosure. Such notice must include information specified in the bylaws with respect to each stockholder nominating persons for election to the Board or proposing other business and certain related persons, information with respect to such person's nominees to the Board (if applicable), and certain representations and undertaking relating to the nomination or proposal, in each case as specified in our bylaws.
- *Proxy Access.* Our bylaws allow one or more stockholders (up to 20, collectively), owning at least 3% of our outstanding shares continuously for at least three years, to nominate for election to the Board

[Table of Contents](#)

and to be included in our proxy materials up to the greater of two individuals or 20% of the Board, only by sending proper notice to our secretary.

- *Cumulative Voting.* Delaware General Corporation Law (the “DGCL”) provides that stockholders are denied the right to cumulate votes in the election of directors unless a company’s certificate of incorporation provides otherwise. Our certificate of incorporation does not provide for cumulative voting.
- *Amendments to Certificate of Incorporation and Bylaws.* The DGCL provides that the affirmative vote of holders of a majority of a company’s voting stock then outstanding is required to amend a corporation’s certificate of incorporation, unless the certificate of incorporation specifies a higher threshold. Our certificate of incorporation does not provide for a higher threshold. The DGCL also provides that a board of directors may be granted authority to amend a corporation’s bylaws if so stated in the corporation’s certificate of incorporation, and our certificate of incorporation provides that the Board may amend our bylaws. Under the DGCL, stockholders also have the power to amend bylaws, and our bylaws provide that they may be amended by the affirmative vote of a majority of the voting power of shares of stock present in person or represented by proxy and entitled to vote thereon.

Delaware Takeover Statute

We are subject to Section 203 of the DGCL, which, subject to certain exceptions, prohibits a Delaware corporation from engaging in any business combination with any interested stockholder for a period of three years following the date that such stockholder became an interested stockholder.

Limitation on Liability of Directors and Indemnification of Directors and Officers

Delaware law authorizes corporations to limit or eliminate the personal liability of directors and officers to corporations and their stockholders for monetary damages for breaches of directors’ and officers’ fiduciary duties as directors or officers, as applicable, and our certificate of incorporation includes such an exculpation provision. Our bylaws include provisions that indemnify, to the fullest extent allowable under the DGCL, the personal liability of directors or officers for monetary damages for actions taken as a director or officer of GE HealthCare, or for serving at our request as a director, officer, employee, or agent at another corporation or enterprise, as the case may be. Our bylaws also provide that we must indemnify and advance expenses to our directors, officers, and employees, subject to our receipt of an undertaking from the indemnified party as may be required under the DGCL.

The limitation of liability and indemnification provisions that are included in our certificate of incorporation and bylaws, respectively, may discourage stockholders from bringing a lawsuit against directors for breach of their fiduciary duty. These provisions may also have the effect of reducing the likelihood of derivative litigation against our directors and officers, even though such an action, if successful, might otherwise benefit us and our stockholders. However, these provisions do not limit or eliminate our rights, or those of any stockholder, to seek non-monetary relief such as an injunction or rescission in the event of a breach of a director’s duty of care. The provisions do not alter the liability of directors under the federal securities laws. In addition, investment in our common stock may be adversely affected to the extent that, in a class action or direct suit, we pay the costs of settlement and damage awards against directors and officers pursuant to these indemnification provisions. There is currently no pending material litigation or proceeding against any of our directors, officers, or employees for which indemnification is sought.

Exclusive Forum

Our certificate of incorporation provides that, unless we consent in writing to the selection of an alternative forum, the Court of Chancery located within the State of Delaware will be the sole and exclusive forum for any derivative action or proceeding brought on our behalf, any action asserting a claim of breach of a fiduciary duty

[Table of Contents](#)

owed by any current or former director, officer, employee, agent, or stockholder to us or our stockholders, any action asserting a claim arising pursuant to the DGCL, the certificate of incorporation, or the bylaws, or any action asserting a claim governed by the internal affairs doctrine. However, if the Court of Chancery within the State of Delaware lacks jurisdiction over such action or proceeding, the action may be brought in another court of the State of Delaware or, if no court of the State of Delaware has jurisdiction, then in the United States District Court for the District of Delaware. Additionally, our certificate of incorporation states that the foregoing provision will not apply to claims arising under the Securities Act, the Exchange Act, or other federal securities laws for which there is exclusive federal or concurrent federal and state jurisdiction. Unless we consent in writing to the selection of an alternative forum, the federal district courts of the United States of America shall be the exclusive forum for the resolution of any complaint asserting a cause of action arising under the Securities Act. The exclusive forum provisions may limit a stockholder's ability to bring a claim in a judicial forum that it finds favorable for disputes with us or any of our directors, officers, or stockholders, which may discourage lawsuits with respect to such claims. Our stockholders will not be deemed to have waived our compliance with the federal securities laws and the rules and regulations thereunder as a result of our exclusive forum provisions.

Transfer Agent and Registrar

The transfer agent and registrar for our common stock is Equiniti Trust Company.

Our common stock is listed on Nasdaq under the symbol "GEHC."

PLAN OF DISTRIBUTION (CONFLICTS OF INTEREST)

The selling stockholder identified in this prospectus or applicable prospectus supplement may offer, from time to time, up to an aggregate of 61,581,302 shares of our common stock. We are registering such shares, which are currently owned by GE, under the terms of a Stockholder and Registration Rights Agreement between us and GE. We will not receive any of the proceeds from the sale of such shares of our common stock by the selling stockholder. We are not selling any shares of our common stock under this prospectus.

The selling stockholder may sell all or a portion of the shares of our common stock described in this prospectus from time to time in the future directly to purchasers, including pursuant to a debt-for-equity exchange, or through underwriters or broker-dealers (or affiliates thereof), who may receive compensation in the form of discounts, concessions or commissions from the selling stockholder or the purchasers of the shares. These discounts, concessions or commissions as to any particular underwriter, broker-dealer or agent may be in excess of those customary in the types of transactions involved.

If GE disposes of the shares of our common stock through a debt-for-equity exchange, it is expected that GE and a debt-for-equity exchange party will enter into an exchange agreement. Under the exchange agreement, subject to certain conditions, a debt-for-equity exchange party, as principal for its own account, would exchange debt obligations of GE held by a debt-for-equity exchange party for shares of our common stock held by GE. In the event that a debt-for-equity exchange party is offering for sale shares of our common stock acquired pursuant to a debt-for-equity exchange, we will name such debt-for-equity exchange party as a selling stockholder in a prospectus supplement, and references to the “selling stockholder” shall apply to a debt-for-equity exchange party. GE may also be deemed a selling stockholder in such an offering solely for U.S. federal securities laws purposes.

In the event that a debt-for-equity exchange party is offering for sale shares of our common stock acquired pursuant to a debt-for-equity exchange, such debt-for-equity exchange party named in an applicable prospectus supplement, which would act as an underwriter in the contemplated offering, would receive 5% or more of the net proceeds of such offering as the selling stockholder, and such debt-for-equity exchange party named in such prospectus supplement would be deemed to have a “conflict of interest” under FINRA Rule 5121. Accordingly, the contemplated offering would be conducted in compliance with the requirements of Rule 5121. The appointment of a “qualified independent underwriter” would not be required in connection with such an offering because a “bona fide public market,” as defined in Rule 5121, exists for our common stock. In accordance with FINRA Rule 5121, a debt-for-equity exchange party named in such prospectus supplement would not confirm any sales to any account over which it exercises discretionary authority without the specific written approval of the transaction from the account holder.

The shares of our common stock may be sold in one or more transactions on any national securities exchange or quotation service on which the shares may be listed or quoted at the time of sale, in the over-the-counter market or in transactions otherwise than on these exchanges or systems or in the over-the-counter market and in one or more transactions at fixed prices, at prevailing market prices at the time of sale, at varying prices determined at the time of sale or at negotiated prices. These sales may be effected in transactions, which may involve crosses or block transactions. Additionally, the selling stockholder may enter into derivative transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. The selling stockholder may use any one or more of the following methods when selling shares:

- on any national securities exchange or quotation service on which the shares may be listed or quoted at the time of sale, including, Nasdaq in the case of the common stock;
- in the over-the-counter market;
- in transactions otherwise than on these exchanges or services or in the over-the-counter market;

Table of Contents

- through the writing or settlement of options or other hedging transactions, whether the options are listed on an options exchange or otherwise;
- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- debt-for-equity exchanges;
- privately negotiated transactions;
- settlement of short sales entered into after the effective date of the registration statement of which this prospectus forms a part;
- broker-dealers may agree with the selling stockholder to sell a specified number of such shares at a stipulated price per share;
- a combination of any such methods of sale; and
- any other method permitted pursuant to applicable law. In addition, any securities that qualify for sale pursuant to Rule 144 or Regulation S under the Securities Act or under Section 4(a)(1) of the Securities Act may be sold under such rules rather than pursuant to this prospectus or a prospectus supplement, subject to any restriction on transfer contained in the Stockholder and Registration Rights Agreement between us and GE.

If the selling stockholder uses an underwriter or underwriters for any offering, we will name them, and set forth the terms of the offering, in a prospectus supplement pertaining to such offering and, except to the extent otherwise set forth in such prospectus supplement, the selling stockholder will agree in an underwriting agreement to sell to the underwriters, and the underwriters will agree to purchase from the selling stockholder, the number of shares of our common stock set forth in such prospectus supplement. Any such underwriters may offer the shares of our common stock from time to time for sale in one or more transactions on Nasdaq, in the over-the-counter market, through negotiated transactions or otherwise at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices.

The underwriters may also propose initially to offer the shares of our common stock to the public at a fixed public offering price set forth on the cover page of the applicable prospectus supplement. The underwriters may be granted an option, exercisable for 30 days after the date of the applicable prospectus supplement, to purchase additional shares from the selling stockholder. In connection with an underwritten offering, we, our directors and officers, and/or other holders of our common stock may agree with the underwriters, subject to certain exceptions, not to dispose of or hedge any common stock or securities convertible into or exchangeable for shares of common stock for a period of time after such offering. We will file a post-effective amendment to the registration statement of which this prospectus is a part to include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.

In connection with an underwritten offering, the underwriters may purchase and sell shares of common stock in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering, and a short position represents the amount of such sales that have not been covered by subsequent purchases. A covered short position is a short position that is not greater than the amount of additional shares for which the underwriters' option described above may be exercised. The underwriters may cover any covered short position by either exercising their option to purchase

Table of Contents

additional shares or purchasing shares in the open market. In determining the source of shares to cover the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase additional shares pursuant to the option described above. Naked short sales are any short sales that create a short position greater than the amount of additional shares for which the option described above may be exercised. The underwriters must cover any such naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common stock in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of common stock made by the underwriters in the open market prior to the consummation of the offering.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

The selling stockholder may enter into hedging transactions with broker-dealers, which may in turn engage in short sales of the shares of our common stock in the course of hedging the positions they assume. The selling stockholder may also sell short the shares and deliver common stock to close out short positions, or loan or pledge the shares to broker-dealers that in turn may sell these shares. The selling stockholder may also enter into option or other transactions with broker-dealers or other financial institutions or the creation of one or more derivative securities that require the delivery to such broker-dealer or other financial institution of shares offered by this prospectus and the applicable prospectus supplement, which shares such broker-dealer or other financial institution may resell pursuant to this prospectus and the applicable prospectus supplement. The selling stockholder also may transfer and donate the shares in other circumstances in which case the transferees, donees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus and the applicable prospectus supplement.

The aggregate proceeds to the selling stockholder from the sale of the shares of our common stock will be the purchase price of the shares less discounts and commissions, if any.

In offering the shares of our common stock covered by this prospectus and the applicable prospectus supplement, the selling stockholder and any broker-dealers who execute sales for the selling stockholder may be deemed to be “underwriters” within the meaning of Section 2(a)(11) of the Securities Act in connection with such sales. Any profits realized by the selling stockholder and the compensation of any broker-dealer may be deemed to be underwriting discounts and commissions. Any selling stockholder who is an “underwriter” within the meaning of Section 2(a)(11) of the Securities Act will be subject to the prospectus delivery requirements of the Securities Act and may be subject to certain statutory and regulatory liabilities, including liabilities imposed pursuant to Sections 11, 12 and 17 of the Securities Act and Rule 10b-5 under the Exchange Act.

In order to comply with the securities laws of certain states, if applicable, the shares of our common stock must be sold in such jurisdictions only through registered or licensed brokers or dealers. In addition, in certain states the shares may not be sold unless the shares are registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

The anti-manipulation rules of Regulation M under the Exchange Act may apply to sales of the shares of our common stock pursuant to this prospectus and the applicable prospectus supplement and to the activities of the selling stockholder. In addition, we will make copies of this prospectus and the applicable prospectus supplement available to the selling stockholder for the purpose of satisfying the prospectus delivery requirements of the Securities Act. To the extent applicable, Regulation M may also restrict the ability of any person engaged in the distribution of the common stock to engage in market-making activities with respect to the common stock. All of the foregoing may affect the marketability of the common stock and the ability of any person or entity to engage in market-making activities with respect to the common stock.

[Table of Contents](#)

There can be no assurance that the selling stockholder will sell any or all of the common stock registered pursuant to the registration statement of which this prospectus forms a part.

At the time a particular offering of the shares is made, a prospectus supplement, if required, will be distributed, which will set forth the name of the selling stockholder, the aggregate amount of shares being offered and the terms of the offering, including, to the extent required, (1) the name or names of any underwriters, broker-dealers or agents, (2) any discounts, commissions and other terms constituting compensation from the selling stockholder and (3) any discounts, commissions or concessions allowed or reallowed to be paid to broker-dealers.

We have agreed to indemnify the selling stockholder against certain liabilities, including certain liabilities under the Securities Act. We have also agreed, among other things, to bear substantially all expenses (other than underwriting discounts and certain fees) in connection with the registration and sale of the shares of our common stock covered by this prospectus and the applicable prospectus supplement. Agents and underwriters may be entitled to indemnification by us and the selling stockholder against certain liabilities, including liabilities under the Securities Act, or to contribution with respect to payments which the agents or underwriters may be required to make in respect thereof.

Agents and underwriters and their respective affiliates may engage in transactions with, or perform services for us in the ordinary course of business for which they may receive customary fees and reimbursement of expenses.

The estimated offering expenses payable by us, in addition to any underwriting discounts and certain fees that will be paid by the selling stockholder, will be described in the applicable prospectus supplement.

CERTAIN U.S. FEDERAL INCOME TAX CONSEQUENCES TO NON-U.S. HOLDERS

The following discussion is a summary of certain U.S. federal income tax consequences to Non-U.S. Holders (as defined below) of the ownership and disposition of our common stock offered by this prospectus, but does not purport to be a complete analysis of all potential U.S. federal income tax effects.

The effects of other U.S. federal tax laws, such as estate and gift tax laws, and any applicable state, local or non-U.S. tax laws are not discussed. This discussion is based on the U.S. Internal Revenue Code of 1986, as amended, or the “Code,” Treasury Regulations promulgated thereunder, judicial decisions, and published rulings and administrative pronouncements of the U.S. Internal Revenue Service, or the “IRS,” in each case in effect as of the date hereof. These authorities may change or be subject to differing interpretations. Any such change or differing interpretation may be applied retroactively in a manner that could adversely affect a Non-U.S. Holder. We have not sought and will not seek any rulings from the IRS regarding the matters discussed below. There can be no assurance the IRS or a court will not take a contrary position to that discussed below regarding the tax consequences of the ownership and disposition of our common stock.

This discussion is limited to Non-U.S. Holders that acquire our common stock in this offering and hold it as a “capital asset” within the meaning of Section 1221 of the Code (generally, property held for investment). This discussion does not address all U.S. federal income tax consequences relevant to a Non-U.S. Holder’s particular circumstances, including the impact of the Medicare contribution tax on net investment income. In addition, it does not address consequences relevant to Non-U.S. Holders subject to special rules, including, without limitation:

- U.S. expatriates and former citizens or long-term residents of the United States;
- persons subject to the alternative minimum tax;
- persons holding our common stock as part of a hedge, straddle or other risk reduction strategy or as part of a conversion transaction or other integrated investment;
- banks, insurance companies, and other financial institutions;
- brokers, dealers or traders in securities or other persons that elect to use a mark-to-market method of accounting for their holdings in our common stock;
- “controlled foreign corporations,” “passive foreign investment companies,” and corporations that accumulate earnings to avoid U.S. federal income tax;
- partnerships or other entities or arrangements treated as partnerships for U.S. federal income tax purposes (and investors therein);
- tax-exempt entities or governmental entities;
- persons deemed to sell our common stock under the constructive sale provisions of the Code;
- persons who hold or receive our common stock pursuant to the exercise of any employee stock option or otherwise as compensation;
- tax-qualified retirement plans;
- “qualified foreign pension funds” as defined in Section 897(l)(2) of the Code and entities all of the interests of which are held by qualified foreign pension funds;
- persons that at any time own (or are deemed to own) or have (or are deemed to have) owned more than five percent (by vote or value) of our common stock (except to the extent specifically set forth below); and
- persons subject to special tax accounting rules as a result of any item of gross income with respect to the stock being taken into account in an applicable financial statement.

[Table of Contents](#)

If a partnership or other entity or arrangement treated as a partnership for U.S. federal income tax purposes holds our common stock, the tax treatment of a partner in the partnership will depend on the status of the partner, the activities of the partnership and certain determinations made at the partner level. Accordingly, partnerships considering an investment in our common stock and the partners in such partnerships should consult their tax advisors regarding the U.S. federal income tax consequences to them.

THIS DISCUSSION IS FOR INFORMATIONAL PURPOSES ONLY AND IS NOT TAX ADVICE. INVESTORS SHOULD CONSULT THEIR TAX ADVISORS WITH RESPECT TO THE APPLICATION OF THE U.S. FEDERAL INCOME TAX LAWS TO THEIR PARTICULAR SITUATIONS AS WELL AS ANY TAX CONSEQUENCES OF THE OWNERSHIP AND DISPOSITION OF OUR COMMON STOCK ARISING UNDER OTHER U.S. FEDERAL (INCLUDING ESTATE OR GIFT TAXES) TAX LAWS OR UNDER THE LAWS OF ANY STATE, LOCAL OR NON-U.S. TAXING JURISDICTION OR UNDER ANY APPLICABLE INCOME TAX TREATY.

Definition of a Non-U.S. Holder

For purposes of this discussion, a “Non-U.S. Holder” is any beneficial owner of our common stock that is neither a “United States person” nor a partnership or other entity or arrangement treated as a partnership for U.S. federal income tax purposes. A “United States person” is any person that, for U.S. federal income tax purposes, is or is treated as any of the following:

- an individual who is a citizen or resident of the United States;
- a corporation created or organized under the laws of the United States, any state thereof, or the District of Columbia;
- an estate, the income of which is subject to U.S. federal income tax regardless of its source; or
- a trust that (1) is subject to the primary supervision of a U.S. court and the control of one or more “United States persons” (within the meaning of Section 7701(a)(30) of the Code), or (2) has a valid election in effect to be treated as a United States person for U.S. federal income tax purposes.

Distributions

Any distributions of cash or property (other than certain pro rata distributions of our stock) on our common stock will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. Any portion of a distribution that exceeds our current and accumulated earnings and profits generally will be treated first as a return of capital and be applied against and reduce a Non-U.S. Holder’s adjusted tax basis in its common stock (determined separately with respect to each share of our common stock), but not below zero. Any excess will be treated as gain from the disposition of our common stock, the tax treatment of which is described below under “—Sale or Other Taxable Disposition.”

Subject to the discussion below on effectively connected income, dividends paid to a Non-U.S. Holder of our common stock will be subject to U.S. federal withholding tax at a rate of 30% of the gross amount of the dividends (or such lower rate specified by an applicable income tax treaty, provided the Non-U.S. Holder furnishes to the applicable withholding agent a valid IRS Form W-8BEN or W-8BEN-E (or other applicable documentation) certifying qualification for the lower treaty rate). A Non-U.S. Holder that does not timely furnish the required documentation, but that qualifies for a reduced treaty rate, may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS. Non-U.S. Holders should consult their tax advisors regarding their entitlement to benefits under any applicable income tax treaty and the availability of a refund on any excess U.S. federal tax withheld.

If dividends paid to a Non-U.S. Holder are effectively connected with the Non-U.S. Holder’s conduct of a trade or business within the United States (and, if required by an applicable income tax treaty, are attributable to

a United States permanent establishment), the Non-U.S. Holder will be exempt from the U.S. federal withholding tax described above. To claim the exemption, the Non-U.S. Holder must furnish to the applicable withholding agent a valid IRS Form W-8ECI (or a suitable successor or substitute form), certifying that the dividends are effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States. Any such effectively connected dividends generally will be subject to U.S. federal income tax on a net income basis at the regular graduated rates applicable to United States persons. A Non-U.S. Holder that is a corporation also may be subject to a branch profits tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty) on such Non-U.S. Holder's effectively connected earnings and profits, as adjusted for certain items. Non-U.S. Holders should consult their tax advisors regarding any applicable tax treaties that may provide for different rules.

The foregoing discussion is subject to the discussion below under “—Information Reporting and Backup Withholding” and “—Additional Withholding Tax on Payments Made to Foreign Accounts.”

Sale or Other Taxable Disposition

Subject to the discussion below regarding backup withholding, a Non-U.S. Holder generally will not be subject to U.S. federal income tax on any gain recognized upon the sale or other taxable disposition of our common stock unless:

- the gain is effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States (and, if required by an applicable income tax treaty, is attributable to a U.S. permanent establishment of the non-U.S. holder);
- the Non-U.S. Holder is a nonresident alien individual present in the United States for 183 days or more during the taxable year of the disposition and certain other requirements are met; or
- our common stock constitutes a United States real property interest, or USRPI, by reason of our status as a United States real property holding corporation, or USRPHC, for U.S. federal income tax purposes.

Gain described in the first bullet point above generally will be subject to U.S. federal income tax on a net income basis at the regular graduated rates applicable to United States persons. A Non-U.S. Holder that is a corporation also may be subject to a branch profits tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty) on such Non-U.S. Holder's effectively connected earnings and profits, as adjusted for certain items.

An individual Non-U.S. Holder described in the second bullet point above will be subject to U.S. federal income tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty) on the gain derived from the sale or other disposition, which may be offset by certain U.S. source capital losses of the Non-U.S. Holder (even though the individual is not considered a resident of the United States), provided the Non-U.S. Holder has timely filed U.S. federal income tax returns with respect to such losses.

With respect to the third bullet point above, we believe we currently are not, and do not anticipate becoming, a USRPHC. However, because the determination of whether we are a USRPHC depends on the fair market value of our USRPIs relative to the fair market value of our other business assets, there can be no assurance that we are not currently or will not become a USRPHC in the future. Even if we are or become a USRPHC, however, as long as our common stock is “regularly traded” (as defined by applicable Treasury Regulations) on an established securities market during the calendar year in which the sale or other disposition occurs, such common stock will be treated as USRPIs only in the case of a Non-U.S. Holder that actually or constructively holds more than 5% of our common stock at any time during the shorter of the five-year period preceding the date of disposition of, or such Non-U.S. Holder's holding period for, our common stock so disposed.

Non-U.S. Holders should consult their tax advisors regarding potentially applicable income tax treaties that may provide for different rules.

Information Reporting and Backup Withholding

Payments of dividends on our common stock will not be subject to backup withholding, provided the holder either certifies its non-U.S. status, such as by furnishing a valid IRS Form W-8BEN, W-8BEN-E, W-8ECI or other applicable IRS form, or otherwise establishes an exemption. However, information returns are required to be filed with the IRS in connection with any distributions on our common stock paid to the Non-U.S. Holder, regardless of whether any tax was actually withheld.

In addition, proceeds of the sale or other taxable disposition of our common stock within the United States or conducted through a non-U.S. office of a U.S. broker or a non-U.S. broker with specified connections to the United States generally will not be subject to backup withholding or information reporting, if the applicable withholding agent receives the certification described above or the Non-U.S. Holder otherwise establishes an exemption. Proceeds of a disposition of our common stock conducted through a non-U.S. office of a non-U.S. broker without specified connections to the United States generally will not be subject to backup withholding or information reporting.

Copies of information returns that are filed with the IRS may also be made available under the provisions of an applicable treaty or agreement to the tax authorities of the country in which the Non-U.S. Holder resides or is established.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against a Non-U.S. Holder's U.S. federal income tax liability, provided the required information is timely furnished to the IRS.

Additional Withholding Tax on Payments Made to Foreign Accounts

Withholding taxes may be imposed under Sections 1471 to 1474 of the Code and the rules and regulations promulgated thereunder (commonly referred to as the Foreign Account Tax Compliance Act, or "FATCA") on certain types of payments made to non-U.S. financial institutions and certain other non-U.S. entities. Specifically, a 30% withholding tax may be imposed on dividends on our common stock paid to a "foreign financial institution" or a "non-financial foreign entity" (each as defined in the Code), regardless of whether such recipient is acting as an intermediary or a beneficial owner, unless (1) the foreign financial institution undertakes certain diligence and reporting obligations, (2) the non-financial foreign entity either certifies it does not have any "substantial United States owners" (as defined in the Code) or furnishes identifying information regarding each substantial United States owner, or (3) the foreign financial institution or non-financial foreign entity otherwise qualifies for an exemption from these rules. If the payee is a foreign financial institution and is subject to the diligence and reporting requirements in (1) above, it must enter into an agreement with the U.S. Department of the Treasury requiring, among other things, that it undertake to identify accounts held by certain "specified United States persons" or "United States owned foreign entities" (each as defined in the Code), annually report certain information about such accounts, and withhold 30% on certain payments to non-compliant foreign financial institutions and certain other account holders. Foreign financial institutions located in jurisdictions that have an intergovernmental agreement with the United States governing FATCA may be subject to different rules. Under the applicable Treasury Regulations and administrative guidance, withholding under FATCA generally applies to payments of dividends on our common stock.

Prospective investors should consult their tax advisors regarding the potential application of withholding under FATCA to their investment in our common stock.

Item 15. Indemnification of Directors and Officers.

Delaware law authorizes corporations to limit or eliminate the personal liability of directors and officers to corporations and their stockholders for monetary damages for breaches of directors' and officers' fiduciary duties as directors or officers, as applicable, and our certificate of incorporation includes such an exculpation provision. Our bylaws include provisions that indemnify, to the fullest extent allowable under the Delaware General Corporation Law ("DGCL"), the personal liability of directors or officers for monetary damages for actions taken as a director or officer of the Company, or for serving at our request as a director, officer, employee, or agent at another corporation or enterprise, as the case may be. Our bylaws also provide that we must indemnify and advance expenses to our directors, officers, and employees, subject to our receipt of an undertaking from the indemnified party as may be required under the DGCL.

The limitation of liability and indemnification provisions that are included in our certificate of incorporation and bylaws, respectively, may discourage stockholders from bringing a lawsuit against directors for breach of their fiduciary duty. These provisions may also have the effect of reducing the likelihood of derivative litigation against our directors and officers, even though such an action, if successful, might otherwise benefit us and our stockholders. However, these provisions do not limit or eliminate our rights, or those of any stockholder, to seek non-monetary relief such as an injunction or rescission in the event of a breach of a director's duty of care. The provisions do not alter the liability of directors under the federal securities laws. In addition, your investment may be adversely affected to the extent that, in a class action or direct suit, we pay the costs of settlement and damage awards against directors and officers pursuant to these indemnification provisions. There is currently no pending material litigation or proceeding against any of our directors, officers, or employees for which indemnification is sought.

Reference is made to Item 17 for our undertakings with respect to indemnification for liabilities arising under the Securities Act.

We currently maintain insurance policies which, within the limits and subject to the terms and conditions thereof, covers certain expenses and liabilities that may be incurred by directors and officers in connection with

Table of Contents

proceedings that may be brought against them as a result of an act or omission committed or suffered while acting as a director or officer of the Company.

We have entered into an indemnification agreement with each of our executive officers and directors that provides, in general, that we will indemnify them to the fullest extent permitted by law in connection with their service to us or on our behalf.

Item 17. Undertakings.

The undersigned registrant hereby undertakes:

- (1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:
 - (i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;
 - (ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of a prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in

Table of Contents

volume and price represent no more than 20% change in the maximum aggregate offering price set forth in the “Calculation of Registration Fee” table in the effective registration statement; and

- (iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

Provided, however, that:

Paragraphs (1)(i), (1)(ii) and (1)(iii) above do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the Commission by the registrant pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), that are incorporated by reference in the registration statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) that is part of the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) That, for the purpose of determining liability of the registrant under the Securities Act of 1933 to any purchaser:

(i) Each prospectus filed by the registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

(ii) Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5), or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii), or (x) for the purpose of providing the information required by Section 10(a) of the Securities Act, shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date.

(5) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

(6) The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to section 13(a) or section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
